

**BACHELOR OF APPLIED
SCIENCE IN AUDIO**

The audio industry is one of the most exciting yet challenging sectors of the creative media business and offers a wide range of employment opportunities for talented, passionate people like you.

The right education can be a necessary step to successfully enter this demanding industry.

SAE Institute's Bachelor of Applied Science in Audio Program is an intensive practical and theoretical course of study that provides students with the knowledge and skills to shape audio design and creation.

ABOUT THE PROGRAM – 16 MONTH

This degree program expands students' knowledge gained in SAE Institute's Audio Associate Program with advanced subjects, combining audio and technology to prepare graduates for a wide variety of career outcomes in the audio industry.

To successfully complete this program, students will also be immersing themselves in general education courses like U.S. History, Psychology and Sociology.

This is a hands-on, project-based program, and culminates in a major capstone project that draws upon the range of knowledge and skills learned throughout the course. Our Bachelor of Applied Science in Audio Program can be completed in only 16 months—after having completed the Audio Associate Degree.

WHAT YOU'RE TAUGHT

Students in the Bachelor of Applied Science in Audio program will take a variety of courses during their time at SAE Institute. Some of these include:

Advanced Studio Production

Advanced Studio Maintenance and Audio/Visual Technology

Advanced Audio Post Production

Mastering and Media Preparation

Advanced Game Audio

Audio Scripting

WHERE DO SAE INSTITUTE GRADUATES WORK?

After completing the Audio Bachelor program, graduates will be able to find entry-level opportunities for careers such as:

- A/V Director
- Music Director
- Film Sound Engineer
- Front of House Engineer
- ADR Director
- Sound Editor
- Broadcast & Sound Engineering Tech
- Acoustic Consultant

Our audio alumni gain entry-level employment at a number of organizations in the audio industry. In the past several years, SAE Institute graduates have been employed by Red Bull Music Studios, NBC Universal and more.

SUPPORT ALONG YOUR CAREER JOURNEY

The path to finding a career in creative media can be a challenging one. Our career services team is dedicated to helping you find career opportunities in the industry. We have the resources to help guide and support you on your career journey.

WHY SAE INSTITUTE?

Starting in Australia, SAE Institute has been delivering focused, hands-on education, employing qualified instructors with real-world experience, and working closely with industry partners since 1976. Our courses emphasize practical experience and are designed to provide students with a foundation of practical theory and valuable training in their chosen areas of concentration. We operate under a strong vision, with a purpose to support our students. Not only are we committed to excellence in education, we're also passionate about helping aspiring professionals reach their potential, which is why we continue to be one of the global leaders in creative media education today.

PRO-QUALITY TOOLS & RESOURCES

Students have access to quality tools and software that are used by professionals in the industry. A Technology Package is available for purchase to students, which includes an iPad, headphones, and other materials they need to succeed in class. Because of our partnerships, we're able to offer these materials all in one place, more affordably than if students had to purchase them separately. Additionally, students have access to our recording studios.

*Tech package is subject to change, talk to your admissions representative about the current package.

WHAT OUR ALUMNI SAY

KRISHON GAINES **SAE INSTITUTE NASHVILLE, AUDIO**

“SAE Institute really gave me the knowledge I needed to be able to walk into any recording studio and know how to work the room. The program equipped me with all the elements I needed to get me where I am today.”

ADMISSIONS REQUIREMENTS

The admissions requirement for the Bachelor of Applied Science degree in Audio is a completed Audio Associate of Applied Science degree from an SAE Institute Campus or a comparable degree from an institute accredited by an agency recognized by the U.S. Department of Education as evidenced by official transcripts prior to the start of the program.
